Education

Vivekanand College, Surat, India
BCA - Bachelor of Computer Applications *2022 – 2025*
CGPA: 6.7

Dy Patil Ambi University, Pune, India
MCA. in AI/DS (Artificial Intelligence And Data Science) *2025 – 2027*
CGPA: -

Skills

Programming Languages: Python,Java,JavaScript,C#,PHP,HTML
Libraries / Frameworks: Numpy,Pandas,Matplotlib,Seaborn,Plotly,Tensorflow,Pytorch,Sklearn,Stremelit,Node.j
Bootstrap, JQuery
Tools / Platforms: Git, GitHub, VS Code, Jupyter Notebook , Idle
Databases: SQL, MongoDB, MySQL ,PostgreteSql

Projects / Open-Source

1.Restar-Amusment Park — Project Link
PHP, MySQL, HTML, CSS, JavaScript, Apache XAMPP

- Developed a dynamic and database-driven web application using PHP and MySQL to manage and process user data efficiently. The project follows a structured MVC-style approach to ensure clean code organization, scalability, and maintainability. It includes secure user authentication, CRUD operations, and server-side validation to ensure data integrity and security.

- The application features a responsive user interface built with HTML, CSS, and JavaScript, enabling smooth interaction across devices. Backend logic is handled using core PHP, with proper session management, form handling, and database connectivity.

2.Mask Detection — Project Link
Python(Using Deep Neural Network),Front End(Stremelite)

- Developed a Python Based Project The Core Component Or Model Use In This Project Was Deep Lerning Cnn Network. And Front End Use Stremelit Libarary.

- The Model Actual Preditct The Image Was Mask With Or Not..

3.Machine Learning Projects — Project Link
Python(Using Machine Learning Algorithms),Front End(Stremelite)

- I Have Created Several Types Of Machine Learning Projects And Model Using ML Algorithms Like Logistic Regression, K-Nearest Neighbors (KNN), Support Vector Machine (SVM), Naive Bayes, Decision Tree Classifier, Random Forest Classifier, Gradient Boosting, AdaBoost, XGBoost, LightGBM.

Sonar Signal Classification, Diabetes Prediction System, Car Price Predictor, Gold Price Forecaster, Credit Card Fraud Detection, Titanic Survival Predictor, Spam Email Classifier, Rainfall Prediction Model, Customer Curn.

Certification — Certification Link

1 ,Deloitte Data Analytics

2 ,JP Morgan Quantitative Research Job Simulation

3 ,Aws Solutions Architecture Job Simulation

4 ,IBM Data Analysis With Python

5 ,IBM Machine Lerning Using Python

6 ,IBM Python for Data Science

7 ,Microsoft Power BI for Beginners

8 ,Microsoft Data Analyst 101

9,Oracle MySQL HeatWave Implementation Certified Associate Rel 1

10,Government nasscom futureskilts Yuva AI for All

11,CISCO data analytics Using Excel,Sql

Experience

Fresher

- Internship - I Have 2 Months Experience Was IIT Delhi Campus Ambassadors Program eDC (Entrepreneurship Development Cell) IIT Delhi And Experience Like I Participete Online Internship Like Company Name Codeveda,Cognify,Syntecxhub(Exp 1 Mounths),Amdox,Aws.

- I Have 2 Months Experience Was Data Science And Analytical Intern From Amdox Technology.

- But Currently seeking opportunities to apply my knowledge and skills in a real-world environment.

- Completed academic projects using web development technologies such as HTML, CSS, PHP, and ASP.NET

- Eager to contribute to team success through hard work, attention to detail, and a passion for continuous learning.
